

# Buddleja davidii

## BUTTERFLY TOWER 'TOBUD1305'

### *A tower of flowers for butterflies!*

A Buddleia with a highly original habit of a tight column. Its foliage is dark green, neatly lanceolated. The flowers form long upright spikes of a beautiful deep purple and attract bees and butterflies throughout the summer. A hardy upright shrub, easy to cultivate, 'Butterfly Towers' requires less space than traditional Buddleias.

In isolation or in hedges as an excellent, colourful screening shrub.
